EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 10-14, 19-21, 24-29 and 33 are cancelled.

In page 1 of the specification, before "Background of the Invention", insert --This application is a 371 of PCT/JP03/12447, filed on September 29, 2003.--

2. This application is in condition for allowance except for the presence of claims 10-14, 19-21, 24-29, and 33 directed to invention non-elected without traverse (the election was made in the response filed 9/16/2009). Accordingly, claims 10-14, 19-21, 24-29 and 33 are cancelled.

3. The following is an examiner's statement of reasons for allowance: Applicant's amendments to claims 1 and 8 distinguish those claims from the prior art (see the amendments filed 4/20/2010). With respect to claim 22, the prior art of record does not disclose "a control device which compares the image of the discharging portion captured before charging liquid in the space and stored in the storing device with images captured at-er charging liquid in the space and controls the pressure control mechanism so that, when liquid exits from the discharging portion, the liquid is retracted until the differences between the images and the image captured before charging liquid is cancelled."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
